Dan and Marisol,

This guy is back and now says that he has approval from the City for these concerts. Have you heard anything?

If we do not speak, have a great Fourth of July.

Mo

Maureen,

I hope all is well and this message finds you in the best of spirits. We have finalized our layout designs and received approval from the City. I am now prepared to discuss our project with you in further detail. Being that we want to keep this project completely confidential until we announce publicly, I would prefer a face to face meeting to go over the fine details. To clarify, the parking lot I am speaking of is not owned by Capitol Records. We have designed a layout specifically for Capitol involvement and would like to present the concept in a fashion that will provide complete clarity and transparency. It is very hard to imagine this project because its never been done before. I would like to have my Production team present so any questions Capitol may have can be answered in the meeting. We feel very confident in the potential of Capitol Records having an interest in being involved. We believe our project will be of great benefit to Capitol Records. Are you available to schedule a meeting at Capitol the week of 7/10-7/15? I look forward to hearing from you. Thanks Maureen!

Dre,

Could you please tell me who you are dealing with? The parking lot that you are talking is owned by the Capitol Records owners and no one knows anything about giving you permission to use the lot. So we are all a little confused about what this concert concept of your is. Could you please let me know who you are speak with regarding this?

Maureen,

I really appreciate you reaching out to me yesterday. It was an absolute a pleasure. I am just touching base with you so we are connected. Over the next few weeks I will be sending you a compete package on what our plans are for Hollywood & Vine Live. I look forward to further discussions with you. Have a blessed week. Thank You!

Hi Maureen,

I have not heard anything, no. Do you have any issue with me asking him directly who he's been working with?

Thanks,

So I asked him what exact parking lot he was using and who in the City he was dealing with and this is what I got back. I am NOT going to meet with him.

Maureen, *and I have a great deal of respect for her, and I think she is a very good person.*

With all due respect, I would rather not discuss any details via email until we have discussed the full scope of our project in person with all parties present and have a tentative agreement to move forward in some capacity. I have no problem showing you our plans however I am obligated to protect my interests and the interests of my partners. This isn't just an idea, this is a big project and its something that we have nurtured for the past year and spent countless hours working on. We have no interest in emailing our plans and disclosing our plans in a way that can be later revisited or shared with colleagues if there is a potential that Capitol may not have an interest. All of our partnerships thus far have been secured this way. We have to protect our project first and foremost. I hope you understand. It's an unconventional approach but this project required that approach in order to come to fruition. We have our plans without Capitol involvement and we have a layout with Capitol involvement. My only interest is to offer Capitol the ability to be involved without releasing my plans to the public. If Capitol isn't interested we will produce our project as planned as our original plans don't require Capitol approval. We do however see an enormous upside if we work together. What we are doing is historic for Hollywood and we want it to stay a secret until we announce it publicly. I don't think we need longer than an hour meeting to figure out if Capitol will be associated with Hollywood & Vine Live. I look forward to sitting with you and discussing our project in detail. There is no doubt in my mind that Capitol will see value in being involved. I look forward to hearing from you. Thanks Maureen!

That should be an interesting conversation. Just so you know, I spoke to the company that runs the parking lot next to the Tower and across the street from the Tower and he has been calling them also, but they have said no to the use of the lots. So I am not sure where he is having these concerts.
